**Advanced Training Products, Inc. featured at Garden State Municipal Joint Insurance Fund Commissioner Meeting**

**Avon, NJ, December 18, 2024**

Advanced Training Products ([www.advancedtrainingproducts.com](http://www.advancedtrainingproducts.com)), a leader in workplace impairment recognition and evaluation solutions, delivered a compelling presentation to the Garden State Municipal Joint Insurance Fund (GSM-JIF) commissioner meeting on December 18, 2024. The company showcased its flagship WIRE Certified Training™ program and introduced its innovative, proprietary closed-loop AI documentation software, The WIRED Algorithm.

During the presentation, Advanced Training Products highlighted how comprehensive training and technology solutions can help GSM-JIF members achieve compliance with the 2021 Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Act (CREAMMA) while enhancing workplace safety initiatives through objective and consistent applications of organizational policies. The WIRE Certified Training™ program, designed to train managers how to recognize and document workplace impairment, aligns perfectly with the evolving needs and legal requirements of New Jersey employers in light of the recent 2021 legislation.

Advanced Training Products is working with the JIF to offer its members cutting edge training at a reduced price to make all municipal workers safer. This collaboration aims to empower municipalities and organizations across New Jersey with the knowledge and technology needed to address workplace impairment concerns effectively, ultimately creating safer work environments and reducing potential liabilities.
